Electronic Thesis/Dissertation Processing Now Available at University Library

NMSU graduate students can now electronically submit information for bindery processing of their theses or dissertations. Members of the Library's Technical Services staff, Gary Mayhood, Rose Sand and Elia Mojica, worked with the Graduate School to develop the form and new procedure. Technical support was provided by Sherry Ward along with Carol Boyse and Cindy Watkins of the Library.

The new thesis/dissertation processing form is now on the library web site at <http://lib.nmsu.edu>. Click on "About Our Library," then on "Forms for Library Services," then on "Thesis/Dissertation Processing Form." When the form is processed, a copy is automatically sent to the Library and to Kathy Billing and Jimi Ickes in the Graduate School Office.
