Gifts Unit staff relocate to 1st floor of Branson Library.

  Government Documents/Maps: Ortiz led NMSU's participation in IMLS grant, 21st Century Government Information in the 21st Century, through which NMSU and other partner document libraries in the 5-state region train and support non-government information library staff in the use of electronic government information through training sessions and workshops. Documents/Maps staff relocated maps and atlas collection to new collection/office space in Room 207, Branson Library.

  Instruction: Staff participants in the instruction program taught 366 sessions—including workshops, course-related sessions, and three sections of LIB 311—reaching ca. 6,288 people.

Reference: Migrated IM reference services from GAIM/Pidgin to Meubo. In coordination with the Information Desk Working Group, revised and expanded upon student assistant training materials to include new modules on customer service and face-to-face electronic resource training sessions. Coordinated librarywide project on reference and directional statistics, expanding collection period in spring 2008 to begin gathering better information on question topics/subjects. Departmental weekly averages for Fall 2007/Spring 2008 sample periods were 186 reference/112 directional questions.

RRS staff also participated in search committees for Acquisitions Librarian, Associate Dean, Development Officer, and Political Officers Archivist.

  - Target: Increase staff participation in strategic planning process — RRS staff helped to lead the Library’s Mission and Retreat Planning task forces and compiled a written report based on the librarywide retreat [Beck, Horton, Johnson, Pierard]

  - Target: Establish new policies and/or revise existing policies - Gifts [Beck/Hussman], Library Use Zones [Pierard/Urbanski]

  - Target: Provide staff training opportunities — Susan Beck offered workshop on Library Research Projects for the Real World [May].

  - Target: Support new tools for service and content delivery — Migrated IM reference service from GAIM/Pidgin to Meubo.

  - Target: Create template and begin implementing online subject guides — LibGuides pilot project approved/funded [April]. Subject guide template created [June]. Production plan completed [June].

Trends/Issues:
- Ongoing need for University guidance in teaching/research priorities as they relate to library collections—new academic programs continue to be proposed and approved, but without a broader long-term academic plan or ongoing fiscal resources.
- Continue development of visible and effective online library services and resources.
- Redesign physical space in reference area to accommodate different learning styles/situations.
