

## Accreditation: Criterion 1

**Mission and Integrity:** *The organization operates with integrity to ensure the fulfillment of its mission through structures and processes that involve the board, administration, faculty, staff and students.*

The NMSU system as **One University** has consistently fulfilled its land-grant mission to serve the educational needs of New Mexico's diverse population through comprehensive programs of education, research, extension education and public service.

**A dynamic institution**, the NMSU system continually adapts to changing circumstances without losing sight of our overarching mission.

The self-study process affirmed our **commitment** to shared governance; working with our community colleges to maximize educational opportunities and creating seamless transitions for our students across our campuses; relying on evidence-based decision-making in implementing change, with empirical evidence guiding decisions, and results measured to determine success; and promptly evaluating and addressing concerns about administrative processes.
